

PC-cillin™ Internet Security 2007

Home and Home Office

Trusted by millions of customers to protect their identity, privacy and irreplaceable files.

Stay Connected. Be Protected. Everyday, everywhere.

Trend Micro PC-cillin Internet Security and TrendSecure™ comprehensively safeguards your computers, home networks and personal identity. Email, shop, share pictures, bank, and instant message, confident that this award-winning security software helps prevent malicious attacks and reduces time-consuming interruptions. TrendSecure, a set of online services, provides extended protection, at home or on the go.

New and Improved Features

AntiVirus Security

Detects and removes viruses from your email, Internet downloads, removable media and PCs with a state of the art new scanning engine, including heuristic scanning and powerful anti-rootkit module to combat insidious rootkits. Automatic updates immunize you against the newest virus outbreaks.

Spyware Protection

Blocks and removes spyware, adware and rootkits that hide deep inside your computer. Applies intelligent, signature-based and behavioral monitoring of over 150 system areas.

Personal Firewall

Intercepts hackers and network viruses trying to attack your computer and home network. Utilizes global application exception lists, managed by in-the-cloud services.

Identity Theft Prevention

Protects you from online phishing and pharming scams designed to steal credit card and bank account numbers. Easy to configure and notifies you of the latest Web site risks.

Wireless Network Monitoring

Safeguards against unauthorized users invading your wireless home network.

Home Network Control

Manages, configures and updates security for every PC on your network, with an easy-to-use management console.

Household License

Superior PC protection for up to 3 home or mobile computers.

Industry Experts Say...

"Trend Micro PC-cillin is slick, integrated and very user friendly."

Netguide Best in Test, July 2006

"It is in a class by itself in terms of performance and efficiency. It is offered at a low price compared to similar products that do less."

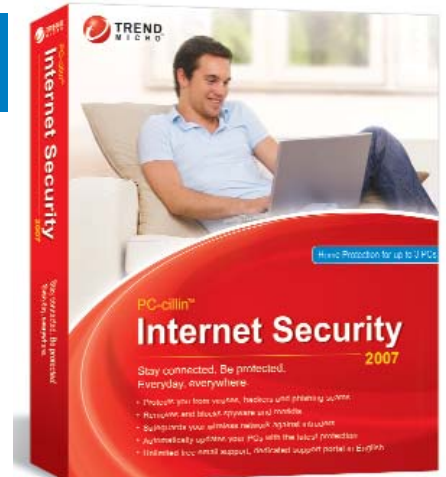

Identity Theft Spy, February 2006

"Trend Micro's PC-cillin Internet Security is the most feature packed solution in the market today."

Hardware Zone, May 2006

Home Protection
for up to 3 PCs

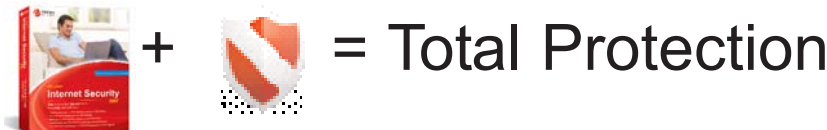

Access PC-cillin's powerful, ongoing protection through a simple, easy-to-use interface.

PC-cillin Internet Security + TrendSecure
